SUMMARY

I'm Passionate and detail-oriented React Frontend Developer with over 2 years of experience in designing and building responsive, user-centric websites and web applications. Skilled in HTML, CSS, and JavaScript, with deep expertise in React and Next.js for delivering seamless and high-performance user experiences. Demonstrated ability to translate client requirements into innovative, efficient, and scalable web solutions, consistently exceeding expectations. Strong focus on clean code, optimization, and creating intuitive interfaces that enhance usability and drive engagement.

EDUCATION

Bachelor of Computer & INFORMATION Science
Manasoura University

- Specialization : Software Engineering and Bioinformatics.

Aug 2019 - Aug 2023
GPA: 3.4 (very good)

WORK EXPERIENCE

Code Clouders

- Full time job as frontend developer (React / Next js).

May 2024 - Present

Serv 5

- Internship as frontend developer .

Jan 2024 - Mar 2024

COURSES

INFORMATION TECHNOLOGY INSTITUTE (ITI)

- Photoshop • Illustrator • XD • Figma

Ui/Ux Design (120HR)
July 2022 - Sep 2022

consulting of COMPUTER &INFORMATION center

- HTLM&CSS • JavaScript • Bootstrap • Vue Js

FrontEnd Course (120HR)
July 2021 - Sep 2021

Aspire Traning Solution

Oct -2022

PROJECTS

- **Saudi Digital Government Authority (SDGA)**

Public Service Portal for Saudi Digital Government Authority

- Developed and maintained a responsive web platform for SDGA, aimed at enhancing access to digital government services for citizens and businesses.
- Built interactive UI components, form flows, and informational sections using vanilla JavaScript and semantic HTML.
- Styled the platform using SASS with modular, maintainable code structure, ensuring consistent design aligned with SDGA's official brand guidelines.
- Focused on performance optimization, accessibility, and clean code practices throughout the development process.
- **Tech Stack:** HTML, SASS, JS
- **Result:** Delivered a reliable, accessible, and visually consistent digital platform supporting Saudi Arabia's digital government vision.

- **Movie Website (TMDB)**

A Dynamic Movie Discovery Platform

- Built an interactive movie website using React, integrating the TMDB API to fetch real-time movie data.
- Implemented features such as movie search, trending section, detailed movie pages, and category-based browsing.
- Designed a responsive and modern UI, ensuring seamless experiences across desktop and mobile devices.
- Included video trailer support, enhancing user engagement with multimedia content.
- Deployed the application via Netlify for smooth and fast user access.
- **Tech Stack:** : React, TMDB API, CSS (or Tailwind/SASS), Netlify
- **Result:** Delivered a feature-rich, visually appealing movie discovery platform with real-time data and responsive user interface.

- **Electronics Website**

A Modern E-Commerce Platform for Electronics

- Designed and developed a fully functional e-commerce platform using Next.js 15, React 19, and Tailwind CSS to ensure a seamless shopping experience.
- Implemented dynamic product listings, search, filtering, shopping cart, and checkout process, providing a user-friendly and intuitive interface.
- Utilized server-side rendering (SSR), lazy loading, and efficient Next.js routing to enhance speed and user experience.
- Created a mobile-first, responsive design with Tailwind CSS, ensuring compatibility across various devices.
- **Tech Stack:** Next.js, Tailwind, Netlify
- **Result :** Delivered a scalable and engaging e-commerce platform with a clean, intuitive, and responsive interface.
